

# THE ROSWELL DAILY RECORD.

VOLUME 1

ROSWELL, NEW MEXICO, TUESDAY EVENING, OCTOBER 13 1903

NUMBER 179

**William Randolph Hearst and Party Will Visit Roswell Next Monday.**

## HEARST COMING.

**The Party Will Be in Roswell Monday October Nineteenth But Only for a Short Time.**

**ONE HOUR AND A HALF.**

**Efforts Are Being Made to Have This Time Extended, So That a Longer Visit May Be Enjoyed.**

Word was received this morning that William Randolph Hearst and party will be in Roswell next Monday. According to the present schedule of the trip they will stop here only one hour and a half. However, efforts are being made today to enter into communication with them and have a change in their program made, so that at least three hours of their time may be given to Roswell. This extension of time would enable the entertainment committee to take the party a drive through the beautiful farms around Roswell and show them some of the results of irrigation. In an hour and a half as at present planned only a short drive could be taken.

It is a source of gratification to the people of eastern New Mexico that the Hearst party realizes that this is one of the most important parts of the Territory and it does not intend that there shall be a repetition of the shabby treatment which the Beveridge party accorded this section in the fly by night race through eastern New Mexico.

The Hearst party is on a trip of investigation. They wish to see all parts of the territories and are not closing their eyes to those things which are not in harmony with their pre-conceived opinions.

Every effort will be made to carry out the trip as planned. The party is at Albuquerque this afternoon. The itinerary is as follows:

Traie left Chicago at 10 o'clock the morning of the 11th.

Arrived at Raton 4:30 Monday afternoon.

Arrived at Las Vegas 7:30 same evening. Two hours stop at Las Vegas.

Arrived at Santa Fe 6 o'clock this morning. Left at 9 o'clock and arrived in Albuquerque at noon today.

Then go to Grand Canyon.

Then south to Prescott and Phoenix.

Then return via Pecos, Carlsbad and Roswell.

### WEPT IN POLICE COURT.

**Lad Pleads Guilty to Stealing and Is Fined by Judge Peacock.**

A lad about twelve years of age named Gentry was before Judge Peacock yesterday charged with stealing a glass minnow trap W. T. Wells had put in a ditch. Mr. Wells called on the boy's father and told him of his son's evil conduct and as he seemed disinterested and would not punish the boy Mr. Wells decided he would have him arrested. The boy's father appeared in court with him and Judge Richardson represented the defense. The boy was fined \$7.50 and the charge was disorderly conduct. He showed repentance and wept bitterly, and it is to be trusted that the lesson will be of benefit to him. It is indeed a pathetic sight to see a young man in court charged with stealing, but when they are permitted to run wild by their parents it is the only course that can be taken.

### BYRON HOBART HERE.

**A Wealthy Young Missourian Will Spend the Winter in Roswell.**

Byron Hobart of St. Louis arrived here on last evening's train with eight of the finest race horses that have ever been in the Pecos Valley, and he will winter them at the fair grounds. There are two stallions, two thoroughbred fillies, one two year old trotting filly and three brood mares. For the present he is registered at the Grand Central with his friend C. S. Smith of St. Louis who accompanied him here. Sam Atkinson is building a six thousand dollar residence on Military Heights which will be occupied by Mr. Hobart and wife when completed, and they will be in Roswell for some time. Mr. Hobart's father is one of the wealthiest men in Missouri.

### Coliseum Bowling Alley.

The front for the Coliseum bowling alley west of the Lea block on Second street has been put in and the building is nearly completed. The Coliseum will be one of the largest and finest bowling alleys in the Southwest.

The Grand Central is constantly on the lookout for the comfort of its guests, and was prepared for the cold snap this morning and had a big stove up in the lobby. The guests all declared that the fire did not feel bad.

## THE TOWN BOARD

**Action Taken to Carry Out The Governor's Proclamation.**

### THE CITY WARDS.

**Committee Appointed to Divide the City into Wards--Other Business Transacted.**

The Town Board met last night at the office of Robert Kellahin, the city clerk. Those present were Chairman Jaffa, and members Denning and Tannehill.

Dr. W. T. Joyner was allowed a bill of \$40.

The matter of the division of the city into wards then came up. The city marshal was present and showed that he had posted the Governor's proclamation in the office of the Roswell Register and that it had remained there for a term of five days. Upon considering the division of the city into wards, and after considera-

### IT ADVERTISES.

**How the Great Southwest Induces Immigration.**

Las Vegas Optic.

The great Southwest is a good advertiser. Hardly a day passes without a scare head news item on first page of the big eastern dailies, telling of some marvelous occurrence in the southwest, the gist of the item being the marvelous productiveness of that region.

Kansas sends out, for example, a story of the greatest yield of wheat ever grown by any one state, nearly 91,000,000 bushels, with a modest reference to the fact that the average for three years has been 86,000,000 bushels. This is the nubbin of hard fact contained in a fairy tale about eastern college graduates coming to Kansas to help harvest this spectacular crop and failing to compete with the bronzed maidens of the Sunflower state when the two classes were called upon to help out. Incidentally Kansas lets the world know that there are a few hundred thousand acres still left on which wheat can be profitably grown.

Down in Oklahoma, where a new commonwealth has been created in twelve years from the sod, the advance agent of prosperity wires the true tale of several carloads of peaches shipped over the Santa Fe from Guthrie through to London, England. This is easily possible because of refrigerator cars and cold storage steamers. The sugar coating is provided in the shape of a romantic yarn about how the peaches were picked by Indian squaws and cowboys' sweethearts, and the dispatch gets preferred position.

The Pecos Valley of New Mexico (really a remarkable example of agricultural prosperity based on irrigation) now has an exhibit car touring the east, containing a display of fruits, vegetables and grains, assisted by a stereopticon lecturer. The exhibit is worth seeing, and is creating much favorable comment; but the news story of the car and contents is usually based on the fact that Hon. Jerry Simpson, formerly known as the sockless statesman, now lives in the valley and is a backer of the exhibit. Hence the item goes in where everybody reads it. Everybody also knows that 86-lb watermelons and pears weighing a pound apiece are every day affairs in that fruitful land.

### EX-CONGRESSMAN HERE.

**Hon. E. K. Valentine and Wife of West Point, Nebraska Will Likely Locate in Roswell.**

Hon. E. K. Valentine and wife of West Point, Nebraska, who have been here for several days at the Grand Central are highly pleased with Roswell and will possibly locate here. He is a prominent Nebraska attorney and is an ex-congressman, having served three terms in congress. He was the first elected in 1879, soon after Nebraska was entered into the Union and was the only representative in congress from Nebraska at the time. In 1881 and 1883 he was elected from the Third district on the Republican ticket. He was also Sergeant at Arms in the United States Senate from 1890 to 1894. He says that he is now out of politics forever. Their son, Watt Valentine, was a first Lieutenant in the regular army in the Philippines for five years and he contracted a bad cold and has since been in bad health and they are looking for a location for him and were recommended to come to Roswell by Judge B. S. Baker of Albuquerque, who is a friend of Mr. Valentine. Judge Baker was formerly from Nebraska and wrote Mr. Valentine that Albuquerque was a good place, but from what he could understand Roswell was the coming town of New Mexico and advised him to come here.

Mr. Valentine has visited Salida, Colorado and is well pleased with that city, and he will visit Carlsbad before he decides to locate. However, he thinks he will locate and practice law here. He has been driven around by Hon. Jerry Simpson to see our farms and ranches and he is delighted with them.

Mr. Porter left on last evening's train for Pecos City.

## Wool Underwear.
